

Searching the Literature and Managing Your Research Workflow

Improve your search skills to save time with manuscript and grant preparation at all stages of your research!

Learn to conduct literature searches using databases like PubMed/Medline, SCOPUS, Web of Science and more.

Learn to manage your references using EndNote:

- Find full-text articles.
- Keep track of your citations.
- Create bibliographies for different journal styles in a flash!
- Insert citations into documents and presentations.
